Charcoal Grill

The charcoal grill that Karl's Event Rental offers is 2 feet wide, by 5 feet long. The grill is free standing with detachable legs, and can accommodate up to 200 brats. The grill is equipped with an adjustable chrome top grid. The grill will hold 40 pounds of charcoal, which should last 3 to 4 hours.

Propane Grill

The propane grill that we have at Karl's Event Rental has aluminized steel construction with a modular design. The grill is 2 feet wide by 5 feet long, and can accommodate about 200 brats. The grill is equipped with a chrome top grid, along with an 8-inch service shelf. The grill has eight different burners, so you can control the flame easily. The gas grill has a stay-lit pilot system, and two tank hook-ups and regulators. The grill will run for about two hours on two 20# tanks. The propane grill also has a tank safety system, and a spark igniter system.
